

Installation tips:

The redesigning and renovation of your stairs with tretford carpet and profiles should be carried out by a specialist to ensure professional and long-lasting results.

Service:

Anyone needing advice is welcome to contact us by phone, mail or email:

Your tretford retailer can provide this service or recommend a specialist for you to:

- ensure that the steps are completely even and remove old color remnants as necessary
- perfectly cut and permanently fit the stair profiles to the stair edges
- compensate for level differences between the angle section and the step either by troweling or by applying soundproofing materia
- and finally, to lay tretford carpet – in the color of your choice – using a specially formulated adhesive while also fitting the stair profile groove onto the carpet.

Tips on maintaining and cleaning your carpet:

A brochure with extensive cleaning tips, for example, spot removal, can be obtained from your tretford retailer or directly from tretford.

tretford-stair profiles were developed especially for stair renovations with tretford carpets. The profile grooves provide slip resistance and allow you to move about safely on your stairs.

Moreover, tretford carpeting absorbs impact noise while creating stairs that ensure outstanding comfort underfoot. Stairs are an important design element of your home, in which not only form but also color plays an essential role.

Tretford's broad color palette offers manifold design possibilities. Tretford carpet in combination with matching stair profiles in timeless and elegant new silver and brass tones, will give your stairs a completely new look.
