

Installation:  
Installing tretford stair mats couldn't be simpler because they are self-adhesive.

Service:  
Anyone needing advice is welcome to contact us by phone, mail or email:

However, before laying the stair mats please pay attention to the following:

- Steps must be even, dry, dust and grease-free.
- Try out the best position for your stair mats first before proceeding to permanently lay them.
- Once you have decided on a perfect position, mark the area – with chalk, for example – for each step.
- Now you can remove the foil and press the stair mat firmly to the edge of the steps.

Stair mats by tretford not only make climbing stairs more pleasurable, but also make it more safe because tretford stair mats protect you from slipping on smooth steps.

tretford stair mats aren't only a good choice for safety considerations, they also ensure that your steps will be protected – on a daily basis – from scratching and dirt.

The special tretford quality with Cashmere goat hair, as well as the high material density (1200g/m<sup>2</sup>), will make your stairs wonderfully walkable. Your joints will thank you.

tretford stair mats:

- Semi-circular; 65 x 23 x 3,5 cm
- Other shapes and sizes on request
- Available in all tretford-Interland colors

Stair mats are available in all Interland colors; color deviations are possible.
